# Click on 'create'.

The screenshot shows the Voki website's character creation interface. At the top, there are navigation buttons: 'MY VOKI', 'CREATE', 'PLAY', and 'PARTNERS'. Below this is a progress bar with two steps: '1 Create a Speaking Character and Add Your Voice' and '2 Publish'. The main area features a large preview window on the left showing a red frog-like character with glasses. To the right of the preview are several customization panels: 'Customize Your Character' with icons for a person, a shirt, and glasses; 'Give It A Voice' with icons for a phone, a keyboard, a microphone, and a folder; 'Background' with a tree icon; and 'Players' with a person icon. At the bottom of these panels are 'Cancel' and 'Publish' buttons. A color selection tool is located at the bottom left of the preview window. On the right side, a sidebar titled 'Start Customizing Your Avatar' contains sections for 'Character Style' and 'Customization'. Five pink callout boxes with arrows point to specific elements: 'Change the person/animal' points to the person icon in the 'Customize Your Character' panel; 'Change the clothes/jewellery...' points to the shirt icon in the same panel; 'Change the background' points to the tree icon in the 'Background' panel; 'Change the colours' points to the person icon in the 'Players' panel; and another 'Change the background' callout points to the tree icon in the 'Background' panel.

# Click on 'Publish'

You can add it to your VLE, e-mail it to yourself, etc...

-  Add To Your Site
-  Send To A Friend
-  Send To Mobile
-  More Voki Fun

Select the size of the player to embed in your site:

Size:

- Large (300 x 400)
- Medium (200 x 267)
- Small (100 x 133)

Then grab your code and place it on your page!

For Most Sites Use This Code:

```
<script language="JavaScript" type="text/javascript">
```

For MySpace Use This Code:

```
<PARAM NAME="movie" VALUE="http://vhss
```
